COMMERCIAL DOCK REQUIREMENTS

- Boundary survey showing the straight-line water frontage of the lot subject to permit application, mean high or ordinary water lines, seawalls, bulkheads, property lines, and the width of waterway. Also, show any easements, location of septic tank and drainfield, location of the proposed dock and size, and setback requirements. The survey must further depict all existing structures. Also, if the property has a septic tank, it is required to have approval from Environmental Health (321-633-2100) indicated on the survey.
- Plans showing the height, width, and length of all proposed structures, to include pilings, boat lifts, platforms, pavilions, and seawalls. Also, detailed construction specifications and all other information deemed necessary by the Building Official to properly evaluate the plan for code compliance. The design, construction, alteration and repair of the pier, dock or boathouse shall conform to the provisions of Construction Codes and Regulations 170.141, 170.142, and 170.999 of the City Code of Ordinances. If owner is obtaining the permit, plan shall be sealed and signed by a Florida licensed engineer.
- Subcontractor permit authorization form, if applicable.
- Public Works right-of-way use permit, if applicable, 321-952-3403.
- Federal and State permits may be required. Please contact the following agencies:
 - St. Johns River Water Management District (SJRWMD), 321-984-4940.
