## FISCAL YEAR 2024 – 2028 MASTER CAPITAL IMPROVEMENTS PROGRAM

The Master Capital Improvements Program (CIP) represents a schedule of major public improvement projects and capital asset/outlay expenditures for the next five-year timeframe. Lead by the Finance Department's Budget Office, the Master CIP is developed in collaboration with citywide Departments mid-year to determine the future funding needs for public improvements and capital asset/outlay replacements. Projects and capital assets/outlay from the first year of the Plan are recommended by the City Manager as part of the annual budget for the next fiscal year.

Starting in Fiscal Year 2023, all future capital requests require the completion of either a "Capital Outlay Detail Listing Worksheet," utilized for budget requests associated with capital assets and/or outlay (i.e. vehicles, equipment or heavy machinery), or a "Project Detail Listing Worksheet," utilized for long-term investment projects with a purpose to build upon, add, or improve capital investments. Impacting Internal Service Departments (i.e. Information Technology, Parks & Facilities, and Public Works/Fleet Services) review each request for accurateness prior to submittal. If recommended for funding in the annual budget for the next fiscal year, the Budget Office uses the information disclosed in the worksheets to open the project in the system and/or add all associated capital expenditures to the budget.

The Fiscal Year 2024 – 2028 Master CIP outlined in this document includes both funded and unfunded requests, regardless of the Fiscal Year. Funded requests for Fiscal Year 2024 are presented to the City Council for adoption via Resolution at the second public hearing, scheduled for Wednesday, September 20, 2023.

#### **Citywide Master Capital Improvements Program Funding Summary**

The Fiscal Year 2024 – 2028 Master Capital Improvements Program (CIP) across all Departments and Funds totals \$392,997,852. Fiscal Year 2023 capital costs associated with all future requests total an additional \$19,834,500; these costs are generally associated with existing projects requiring future funding.

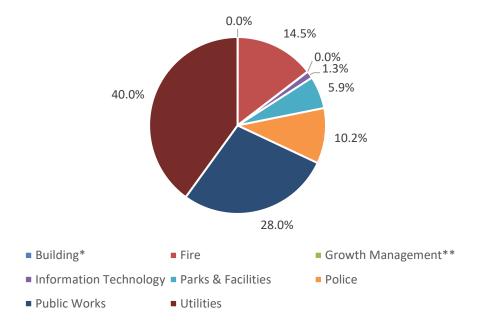

The chart below reflects a breakdown between capital asset/outlay and capital project funding requests for the Fiscal Year 2024 – 2028 timeframe. Capital assets/outlay account for 13.1% of the total funding, while capital project funding accounts for 86.9%.
